### Terms and Conditions of Service

All and any business undertaken in relation to the transportation of items and their temporary storage during or whilst awaiting transportation or collection, including any related advice, information or service provided whether gratuitously or not, is transacted subject to the British International Freight Association ("BIFA") Standard Trading Conditions ( latest Edition) available at this hyperlink [HERE](#). In particular, your attention is drawn to Clauses 23 to 27 which set out the limits of the Company's liability.

Further, it is a condition of the provision of services by the Company that all Customers hold and maintain a reasonable level of transport insurance cover for any and all Goods that will be given over to the care of the Company in the course of provision of the services. In the circumstances where you, as the Customer, have instructed the Company to arrange transport insurance for the Goods; the Company, acting as an agent only, shall declare the Goods on an open policy held by a Peters & May Group Limited company (a copy of the policy is available at this hyperlink [HERE](#)), or its subcontractor, pursuant to Clause 11 of the BIFA terms. If the Customer has procured it's own insurance to cover the Goods, the Customer agrees to provide evidence of the insurance prior to loading. The Customer further warrants that the insurance policy shall name the Company as a co-insured.

Services can only be cancelled by the Customer by providing notice in writing to the Company. Where written notice of cancellation is provided 5 days or less from the first day of the intended start of services, the Customer will be liable for the full sums set out above. If written cancellation is received 6 days or more from the first day of the intended start of services, the Customer will only be liable for any non-refundable costs already incurred by the Company.

If a Customer's acceptance document, purchase order or other communication, received by Company before or after notification of these Terms and Conditions of Service, contains any term or clause purporting to incorporate the Customer's terms and conditions in preference to these terms and/or to negate the effect of these Terms and Conditions, such term/clause shall be null and void, howsoever and whatsoever.

Information and guidance on preparation and packaging of Goods can be found [HERE](#).
